

WASHINGTON ASSOCIATION OF CONSERVATION DISTRICTS

Resolution No. 2018-05

Title: Fully staff local Natural Resource Conservation Services offices

Problem: The NRCS staffing level at local offices has decreased over the last several years. If an employee leaves it is seldom that the position is filled. Conservation Districts work closely with NRCS staff for direction and technical support for conservation projects and Best Management Practices. With reduced staff, it is difficult to implement important and beneficial projects in a timely manner.

Recommendation: WACD and NACD shall work with State NRCS to urge them to fully staff local offices for technical support for Conservation Districts to complete natural resource programs.

Presented by: South Douglas Conservation District

Approved by the North Central Area Association on 10/17/18
Assigned to the Legislative, Bylaws & District Policies Committee
Recommended DO PASS on 11/26/18
Adopted as amended on 11/28/18
